# AI & AUTOMATION

Human creativity. AI-powered content. Smarter workflows.

# STRATEGY, CREATIVITY, AND TECHNOLOGY

We are a small team spanning design, marketing, strategy, and technology. We work closely with our clients, challenge assumptions, and find smart, simple solutions.

Led by Gabriel Lagos, Creative Lead, we combine strategy and creativity to build work that connects: human ideas, AI-powered stories and visuals, and intuitive digital experiences.

20+ YEARS OF EXPERIENCE

HAMBURG, GERMANY

DESIGN, MARKETING, STRATEGY, AND TECHNOLOGY

# WHAT WE WOULD BUILD FOR GOOGLE

AI agents and workflows that handle repetitive work and free the team to focus on strategy.

We would bring together AI-powered task automation, creative content, and intuitive interfaces to support your marketing team's work.

Our approach would start with your project goals and vision, define the scope and deliverables, and develop the work collaboratively through design, development, and revisions.

- 01 AI agents to automate recurring tasks and help the team move faster.
- 02 Human-led campaign ideas brought to life through AI stories and visuals.
- 03 Clear, intuitive interfaces designed for real people.
- 04 Close collaboration, regular updates, and final files ready to use.

# RELEVANT SERVICES

## AI Agents

Smart AI agents for smarter business.

Automate tasks, interact with users, and help your business move faster.

## ADS & AI content

Creative solutions through collaboration.

Human ideas brought to life with AI stories and visuals that get people talking and make brands memorable.

## UX/UI Design

Interface design that solves problems.

Turn confusion into clarity with clean, intuitive experiences built for real people.

# LET'S DISCUSS YOUR GOALS
